# **VOTE WAYNE SIMMONS**

## **CIVIL AIR TRANSPORT**

**Our Sector needs strong, member-led voices, to fight and win for Members**

**I'm seeking your vote as your representative on the Executive Council (EC) for the Civil Air Transport sector.**

**As a passionate advocate for workers' rights, there is no greater privilege than representing colleagues in the workplace.** What drives me is ensuring that every voice is heard, especially those who often feel unheard.

**My commitment is clear, every member should feel valued and included within our union.** No one should feel marginalised because of where they work, or what branch they represent; everyone matters. In my mind there are no regional airports or staff, big branches or small, just reps working hard for their members, who deserve to be respected and heard. **If elected, I will help ensure power is in the hands of the members.**

**In my current roles as Deputy Convenor, Workplace Representative, and Health & Safety Representative at Stansted Airport,** combined with my experience on national and regional committees, I bring extensive knowledge of the challenges our members face like AI threatening jobs and poor air quality affecting our health both on the ground and in the air. These are crucial issues that demand our attention and a strong voice from the top down.

**I ask for your vote, regardless of region or workplace, to make sure your voice is represented.**

# Why Us?

With the cost of living skyrocketing, our jobs being outsourced, many of us facing redundancy and with the increasing threat of AI, Unite members urgently need a strong, united union that has our back — and wins for us.

We will make sure the Executive Council comes together to solve problems and put **members first**. The union belongs to us, the members, and we need it to be a united and effective force for change.

**MEMBERS UNITED** will grow our membership, build a fierce industrial presence, & ensure a strong **Member led** voice that stands up for workers.

**WINNING AT WORK** — An industrial strategy that puts winning at work and sustainable organisation at the heart of our union, with elected reps deciding what's best for their Workplaces with no member left behind.

**AN INDUSTRIAL APPROACH**—Clear industrial priorities should be set by the membership in every sector, working with our industrial officers both regionally and nationally.

**STRONG FINANCES** — Our union's finances must be sustainable so we can deliver tomorrow as well as today. Members need to know how their money is spent, and subs must be proportionate and affordable.

**A MEMBER-LED UNION** — with an Executive Council which will be the voice of UNITE members; holding the Administration to account, ensuring policy is followed, decisions scrutinised, money spent wisely, and punching its weight in the workplace and society.
