VOTE TOM MURPHY GPM&IT

Our Sector needs a strong, member-led voice that listens, unites and wins for Members

I am seeking your vote to continue as your GPM&IT representative on the union's Executive Council.

As your current representative, I have been a strong advocate for you all, raising issues across the sector, supporting members on strike, present on picket lines in digital & tech companies, packaging and print.

An activist for over 40 years, I am branch secretary of the Print Branch. As an FoC and Health & Safety rep, I have served on all the democratic structures of our union and have been your voice at conferences.

Our sector has a proud history. We continue to support members in publishing and new media to secure and extend bargaining, whilst also defending treasured national agreements in paper, packaging and print.

Being your voice on the unions governing body, helping to shape the workplace agenda is very important to me. I have worked nationally to develop our response to AI and automation and understand the challenges in today's hybrid workplace.

We must defend and advance member's terms and conditions, ensure we have adequate resources for organising and recruitment campaigns and equip our lay reps with the training and support they need.

If elected, I will help ensure power is in the hands of the members.

Why Us?

With the cost of living skyrocketing, our jobs being outsourced, many of us facing redundancy and with the increasing threat of AI, Unite members urgently need a strong, united union that has our back — and wins for us.

We will make sure the Executive Council comes together to solve problems and put **members first**. The union belongs to us, the members, and we need it to be a united and effective force for change.

MEMBERS UNITED will grow our membership, build a fierce industrial presence, & ensure a strong **Member led** voice that stands up for workers.

WINNING AT WORK — An industrial strategy that puts winning at work and sustainable organisation at the heart of our union, with elected reps deciding what's best for their Workplaces with no member left behind.

AN INDUSTRIAL APPROACH—Clear industrial priorities should be set by the membership in every sector, working with our industrial officers both regionally and nationally.

STRONG FINANCES — Our union's finances must be sustainable so we can deliver tomorrow as well as today. Members need to know how their money is spent, and subs must be proportionate and affordable.

A MEMBER-LED UNION — with an Executive Council which will be the voice of UNITE members; holding the Administration to account, ensuring policy is followed, decisions scrutinised, money spent wisely, and punching its weight in the workplace and society.
