VOTE MARIE CASEY IRELAND

We need a strong, member-led voice that listens, unites and wins for Members

I am seeking your support for re-election to the Ireland territorial seat on the Executive Council.

I have been a union member for 40 years and representative for 39 years and am Branch Secretary for Waterford Branch, RI/B 8002.

I work in the Healthcare sector and have a lifelong interest in equalities. A caring person by nature and profession, I have fought for women, those with disabilities and special needs and all minorities for my entire life. I'm active in my community, seeking justice and integration and fighting hate and division anywhere it arises.

I'm a committed anti-racist, feminist and activist. I believe society, and by extension our union, must be judged on how it treats its most vulnerable and an injury to one, is an attack on us all. I am a trained and practising Mediator and bring my caring and mediation skills to bear in all my dealings on behalf of our members. I do so in a straight, forthright manner and treat everybody with respect.

We live in a world where, increasingly, the strongest personalities seek to dominate and bully others and we in Unite must resist these dynamics. Fairness, decency and even empathy are under sustained attack, and I believe we in Unite must transcend this and fight for fairer workplaces and communities.

I will help ensure power is in the hands of the members.

Why Us?

With the cost of living skyrocketing, our jobs being outsourced, many of us facing redundancy and with the increasing threat of AI, Unite members urgently need a strong, united union that has our back — and wins for us.

We will make sure the Executive Council comes together to solve problems and put **members first**. The union belongs to us, the members, and we need it to be a united and effective force for change.

MEMBERS UNITED will grow our membership, build a fierce industrial presence, & ensure a strong **Member led** voice that stands up for workers.

WINNING AT WORK — An industrial strategy that puts winning at work and sustainable organisation at the heart of our union, with elected reps deciding what's best for their Workplaces with no member left behind.

AN INDUSTRIAL APPROACH—Clear industrial priorities should be set by the membership in every sector, working with our industrial officers both regionally and nationally.

STRONG FINANCES — Our union's finances must be sustainable so we can deliver tomorrow as well as today. Members need to know how their money is spent, and subs must be proportionate and affordable.

A MEMBER-LED UNION — with an Executive Council which will be the voice of UNITE members; holding the Administration to account, ensuring policy is followed, decisions scrutinised, money spent wisely, and punching its weight in the workplace and society.
